GAS COMPANY WILL MAKE GOOD.

Drilling Last Well Caused Kentucky-Indiana Natural Gas and Oil Co. to Make Assignment

THE BUSINESS WILL GO ON.

Upon application of Otto G. Tague and other stockholders of the Kentucky-Indiana Natural Gas and Oil Co., a receiver was appointed for the company by Judge Chelf last Friday. Mr. Lee Walls, circuit clerk, and under Judge Chelf's former order, taking receiver for this county, regular charge of the local property of the company.

It is understood that the extraordinary expense incident to the drilling of their last well, and the delay of other matters from which funds were expected, strained the company's credit, and when a few of the creditors became insistent, it became necessary for those interested to take this step to prevent the shutting down of the plant and the resultant waste of the assets of the company.

When seen Saturday by the News, the president of the company stated that he had every reason to believe that the present arrangement would be but temporary, and that he hoped to have matters so arranged within thirty days that the receiver could be discharged. The local plant will be continued in operation and gas furnished to their consumers as heretofore, so that no inconvenience to their patrons will be experienced.

It is to be hoped that the company will soon be in shape to resume charge of its affairs, as those interested have worked hard and have spent their money freely to give Cloverport an up-to-date gas plant, and the best wishes of our people will be with them.

Mr. Tague left Sunday for the East in the interest of his local affairs, and expects to be back this week with such help as he will need arranged for.

PAST THE FOUR SCORE LIFE POST

Mrs. Willie Wells Summoned By Death Yesterday Morning At The Home Of Her Daughter, Mrs. Lizzie Geer.

FUNERAL THIS AFTERNOON.

After serious illness since last September, Mrs. Willie Wells died Tuesday morning at three o'clock at the home of her daughter, Mrs. Lizzie Geer.

Mrs. Wells had lived a long, useful life. She was eighty-five years of age last November. She was born in Boone County, Kentucky.

Her life was useful and interesting, having reared three children, Mrs. Wm. Smart, Mrs. Lizzie Geer and Capt. Jas. W. Kay, who survive her. She was married twice, her first husband was Richard Kay, and her second husband was Richard Wells, who died in 1873, a year after her marriage to him.

Mrs. Wells was a member of the Methodist church fifty years. She was a modest, Christian woman, who desired all eulogies while she was living.

The funeral will take place this afternoon from Mrs. Geer's residence and will be conducted by Rev. German P. Dillon. The interment will take place in the Cloverport cemetery.

Epworth League

Adopts Envelope System.

The Epworth League adopted an envelope system Sunday night to raise \$50 for the purchase of a piano and \$15 for the missionary pledge. It was on account of the wishes of Rev. Mr. Dillon and Mrs. Dillon that this method be tried to raise the money instead of giving the annual League carnival. The League regret giving up their carnival, not for the pleasure it afforded them. However, they are anxious to co-operate with the minister and do what he thinks best. Rev. Dillon says he cannot conscientiously endorse pay affairs for raising money in any department of the church. The Epworth League is one of the most popular institutions of the Methodist church, and has a live membership.

Postoffice Department Urges That All Rural Mail Boxes Be Painted White

Postmaster C. L. Barnes is in receipt of a letter from the Postoffice Department in Washington City, which urges the rural delivery to paint their mail boxes and the posts to which they are attached, a pure white color. The object of the painting is to protect the boxes and posts from damage by the weather, to give all boxes a uniform color, to establish their identity in all parts of the country as United States mail boxes and to give them a much smarter and sightlier appearance. The owners of boxes are also requested to imprint their names and box numbers on boxes in black letters about two inches high.

The letter also urges the postmaster to induce all road officials to point up on the posts of boxes which are located on cross-roads the names of the town or villages to which the cross-roads lead, with an indicator showing the direction.

Change in the Telephone

Office-New Manager.

Mr. Halliwell, of Tennessee, is here to take charge of the Cumberland exchange as the former manager, R. G. Sharpe, has resigned. Mr. Branch, an auditor, is here adjusting the affairs of the office. J. Y. Brown, the trouble man, has also left the exchange.

Highest Prices In Years

Paducah, Ky., April 10.—(Special.)—Hatchcock and the highest prices in several years that it has brought in several years on the local market. Loose tobacco sold on wagons for 12½ cents a pound, and eleven grades are just double what they were a few months ago. John Hedge sold his entire holding, over 1,000,000 pounds, to the Italian Government and the American Sugar Company. Heretofore he sold in the English market.

Dark tobacco is scarce, there being but about 1,700 hogsheads available just now with probably 1,000 more to come. A year ago he sold over 13,000 hogsheads. In all the years over 400 hogsheads marketed here and at Mayfield the past week.

OLD MULL

Finds a Unique Way to Make Funds to Pay His Subscription to The News.

Editor News:—Why is it the poets sing about the melancholy days in the fall when they come to 'us in the spring? Since the weather turned warm we had to go to work—real work—this is sad. We have had a case of that tired feeling.

Our subscription to the News and Louisville Times has expired, and we haven't a cent to renew so what will we do? It's too early to trash our outs. Mother says that we we trash the cats. That wouldn't do. We have no roads, and couldn't get to market with the wool. A happy thought struck us; we would just trash pap. The idea almost killed father. Paw took an awful chill, and shook so hard \$1.50 fell in our lap to pay for the Breckenridge News and Courier-Journal for one year.

All join hands, and now we will sweet sing, "There's a Happy Time in this Old Town Tonight." Now there is nothing to it, we are not going to be caught short on funds next year if we have to cut buying candy for the girls. We love the girls—but oh, you newspaper!

It was a case of mistaken identity, but I caused Old Mull almost get his everlasting. He met George Hall, a neighbor, a few days ago. Now, George had turned out a crop of whiskers that would make Rip Van Winkle turn green with envy. Mull being an old man, mistook George for Walker White. Being a brave man, we didn't run, but we passed a man that was running.

Joe Mulholland, Jr., Carter's Landing, April 5.

Kentucky to Have

Indeterminate Sentences

Under the new law passed by the Legislature, which will soon go into effect, the jury in Kentucky will no longer be called upon to fix the term of punishment of those convicted of crimes in the Circuit Courts, but will only decide whether the prisoner is guilty or innocent. The judge will impose the indeterminate sentence from the highest to the lowest provided by law and the time served will depend entirely on the action of the convict while in prison. He cannot be paroled until he has served the lowest sentence provided by law.

The new law will prevent many hang juries, give more equality in punishment, and offers great incentive for the prisoner to reform his life.

Boat Party.

Mr. and Mrs. Fred Fraize, Mr. and Mrs. Fred Ferry, Mr. and Mrs. Will Pate and daughter, Mary, Misses Irene Jarboe, Anna Jarboe, Margaret and Elizabeth Skillman and Miss Pauline Moorman had a most delightful trip to Hawesville Sunday in the launch, Mary Jane.

Dr. Hillary Boone and his visitor, Mr. Bernard Boling, of New Haven, who went to Owensboro Saturday evening, returned home yesterday. Dr. Boone was initiated into the fraternity, Knights of Columbus, and attended the Ball given by them Monday night.

WAR ON TUBERCULOSIS.

Church Asked to Aid in the Campaign Conducted to Get Rid of Plague.

The National Association for the Prevention of Tuberculosis has planned a tuberculosis Sunday for April the 24th. They are asking that in every church in the United States a sermon or lecture on this important subject be delivered that day. The Association has prepared to supply every local association in the country with material to be given to the various ministers and others, from which to prepare such sermons or lectures.

The Kentucky Association has its headquarters in Louisville and an application to Miss Harriet E. Anderson, acting secretary, 215 East Walnut street, Louisville, Ky., will bring such literature. Mr. C. L. Adler, president of the association, earnestly requests that all ministers in the State of Kentucky shall join in this national movement on April 24.

Kentucky badly needs the preaching of the gospel of education on this subject. The disease can be eradicated, and eradicated only by cleanliness, healthful living and the knowledge of the means by which it is spread. Kentucky is suffering more from the disease than all but two or three States of the Union. She is ignorant of her condition and, if we are to judge by the acts of the recent Legislature, unwilling to take the necessary steps to better it. Public agitation and education alone can help us. Will the newspapers of Kentucky bring this matter to the attention of every minister in the State.

Little Miss Barnum

There is no constitutional objection to the joining of the press and church in any great movement for the advancement of the health or morals of the people, and in this movement the Kentucky Association calls particularly on the press and church to aid.

Grandma Raitt's Hymn.

How sweet to reflect on the joys that await me,
In you blissful region, that haven of rest,
Where glorified spirits with welcome should greet me,
And lead me to Mansions prepared for the blessed.

Endured with light and with glory enshrouded,
My happiness perfect, my minds sky unclouded;
I'll bathe in the ocean of pleasure unbounded,
And range with delight through the Eden of love.

White angelic quires, with harps tuned celestial,
Harmoniously join in the concert of praise;
The salutes of the choirs, from the regions terrestrial,
In loud Hallelujah their voices shall raise.

Their songs to the Lamb, shall re-echo through Heaven,
My soul shall respond to Immanuel be given
All glory, all honor, all might, all dominion,
Who has brought us through grace to be children of God.

A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give it up for five times its cost.'"

Cautionary Note: Be sure you use this stove as the nameplate reads "New Perfection."

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired that you can't eat, but light, perfect, clean, and economical, the heat from an intense blue flame shoots up to the bottom of pot, or pan, or kettle, and the room isn't heated. There is no smoke, no soot, no outside heat, no dangerous fire hidden where one of these stoves is used.

New Perfection WICK BLUE FLAME Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be used with or without Cabinet.

BEARD BROS'. BREEDING STOCK

HARDINSBURG, KENTUCKY

In offering to the public our breeding stock for 1910 we can say that never before have we been able to offer our patrons such advantages as we can this time.

We purchased Highland Glenworth season before last and he is recognized as one of the purest bred stallions in America. It requires a large investment to bring such stock as this to our county and we feel that the farmers should show their appreciation of our efforts to improve the stock of our county by their liberal patronage.

Our service fees are the smallest for this class of stock ever offered to the people.

Your careful consideration of our claim on your patronage will be highly appreciated.

HIGHLAND GLENWORTH

(American Saddle Horse Breeders' Association, No. 2196)

For Highland Glenworth we have only to say that he is the highest styled, truest acting, finest finished and richest bred saddle stallion money would buy. Horsemen familiar with Highland Danmark, Monte Cristo, Black Squirrel and Chester Dura, know that our was the champion of the ring and also of the stud in his day. No other stallion living or dead can claim all these great honors for lineal sires, and Highland Glenworth's dam, grand dam and great grand dam were all noted nudes—productions from mating by the shrewdest horse-men ever known to Kentucky. It is no surprise that Highland Glenworth is one of the leading sires of the country as nothing but the hottest blood courses his veins and no cold cross anywhere in his pedigree to crop out in calf.

PEDIGREE: Highland Glenworth is a blood bay stallion, 5 hands high, black points, foaled 1902, sired by Highland Danmark 730, by Black Squirrel 58, by Black Eagle 74, out of Mellic, Black Eagle was by King William 67 out of Kitty Richards, Mellic was by Giltie's Highland out of Betsy, Highland Danmark 730 was out of Miss Gravy, by Dave Akin 775, by Richmond out of daughter of Wagner, Jr. First dam Annette Lee 1857, by Black Squirrel 58, second dam Nany Lee 476, by Monte Cristo 59, by Montrose 106, out of Fannie Giltner 59, third dam Nannie Garret 472, by Dave Akin 775, fourth dam Nannie.

We want to farm a few of the best mares in Breckenridge county to breed to Highland Glenworth and will be glad to negotiate with owners of high-class brood mares. See us as soon as possible.

Season Fee \$20 to insure a living colt.

SPORTING BOY

A red sorrel stallion, foaled in 1900, small star and little white on inside of left hind ankle. This is a grand stallion of great style, good bone and beautiful color. He is 16 1/2 hands high and well proportioned and weighs 1,200 pounds. He has the very best feet and legs, and is as well bred as any saddle stallion in America. He combines many of the characteristics of both the Morgan and Denmark families of Kentucky. He is by My Own's Boy, Jr., who is by My Own's Boy, and his dam is Belle Slaughter 382 N. S. H. R. Vol. 1. My Own's Boy is by the grandly bred My Own, No. 1521, who was by Artie 65, and out of Lady Graves 57, who was by Mont Rose 106. Artie was by the renowned King William 67 who was by Washington Denmark 64. King William sired Black Eagle 74, who sired Black Squirrel 58, who is famous as a sire of style and good qualities, throughout Kentucky and Tennessee.

SPORTING BOY's dam was by the renowned model and show stallion Endor 27, who has more premiums to his credit than any stallion in his day, and had for his sire King Denmark, and dam by Boliver (th.). Sporting Boy's second dam was by Warren Chief, he by Cabel's Lexington, her second dam was by Old Copperbottom, who was one of the founders of saddle horses in Kentucky and Tennessee. Sporting Boy not only possesses the blood line, but has all the qualities in action and beauty. He is a saddle horse from a walk to all gaits, and in a trot he is a trotter and in a rack he is a wonder. He is absolutely sound and has proven a sure breeder. Sporting Boy will make the season

CLOVERPORT, KY., WEDNESDAY, APR. 13, 1910

The press, too paid me its respects. Reporters seized with avidity on all scraps of news about me, put my pictures in the paper, standing up and sitting down. At last they have found that after all I am only a man. I was glad to see all this. It was not done for me, but for the glory of the church, and I rejoice over it. I certainly have been well advertised.—Bishop O'Donoghue.

Uncle Joe Cannon landed in Illinois he said, with just 50 cents in his pocket and a "sheep skin." He rented an office and secured board on credit. He sat in his office for two months with that "sheep skin" hanging on the wall, but not a client came. He got mad one day, snatched the diploma and threw it out the door; from that time on, he says, business began to come to him. This is a story he told some University students who called on him in Washington. After all there is little in a diploma, it is all in the man.

There is no better timber in this State for Governor than Col. Ben Johnson. He will bring to this office more system and business than any Governor for years. He is a financial success himself; economical, conservative; a man of high character; a lawyer of known ability, and a Congressman that is making his mark. Why shouldn't he make a good Governor of Kentucky? He will. And the thing for the Democrats to do is to nominate him and elect him.

C. C. Howard, editor of The Hodgenville Herald, has recently suffered a severe burn on his right hand from the use of gasoline. Mr. Howard is not able to write, but hopes to be back at his desk by the fifth of May, the twenty-fifth anniversary of his good paper.

What are you doing and saying about our County Fair. Better get busy right now. We know one young lady who is already making a quilt for it. The women and girls of this county should get interested. Do something, make something for the Fair.

Last week we urged water works and a fire engine for Cloverport, and now we join others in the cry for an ice plant. If any man or company starts the ice business for this city, they may be assured of one customer, at least.

Our lettuce, onions, radishes and asparagus are just fine—so fresh and crisp. Jno. D. Rockefeller don't enjoy his money half as much as we do our garden. We have corn and potatoes up and a fine stand of strawberries.

The growing little city of Irvington is figuring on water works and an electric light plant. Nothing will give that town a greater boost, besides these things are essential to health, comfort and protection.

Congratulations are extended to The Elizabethtown News that celebrated its twenty-ninth anniversary last Friday.

We have been preaching water works and lights for this town for a third of a century. Still we have hopes.

Green Leaves and Their Messages

From The Girls' Department of The Circle—April Number

Did you ever sit in the firelight and talk with your mother as though she were a girl friend? A little while back she was a girl just like yourself, she had experiences of joy and disappointment, the same kind that come to you. Learning the way she passed through them will help you to take hold and let go of those which fall in your path. Get your mother to tell you about the sweetest dream, the greatest happening of her life!

Not long ago mother told me most interestingly about the old-fashioned Southern Garden at grandfather's home and about the morning of a late Easter that she walked within its gates. She said the garden looked as if a rainbow, brilliant and gorgeous, had fallen upon it. Each flower had resurrected into perfect beauty and spring had transformed every bush into magnificent creations of art and color.

Wonderful beyond all else, however, were the green leaves and their wise and beneficent messages. From the pansy leaf came this: "Be patient with little children and set before them a careful example." The leaves of the four-o'clock flower cried out: "Value the opportunity that is nearest your hand, work or play with all your might. Do not idle away your time in mere planning." The primrose leaf whispered softly: "Be peaceful; keep your nerves still." The poppy leaves offered the following suggestion: "Pine not for the pleasures away from you, enjoy thoroughly those you have—health, seeing and hearing." The

COURT NEWS.

The Fiscal Court, composed of County Judge, L. L. Waggoner and Magistrates G. A. Wright, of McQuady; G. N. Harris, of Cloverport; S. H. Dix, of Stephensport; John N. Akers, of Irvington; Samuel Slaughter, of Madrid, and Burrell A. Whittinghill, of Cleflee, met on Tuesday last week and closed a four days session on Friday afternoon. The court is composed of Republican members except in the case of Messrs Harris and Dix. The McDaniel district elected Frank Dean, Democrat, but upon his failure to qualify Gov. Wilson appointed Mr. Whittinghill. Their first meeting was characterized by harmonious business-like procedure. Each seems profoundly interested and determined to do what he believes to be the best for the people of the county. They started out with the same lack of partisanship that was observable in Judge Moorman's courts, they too gave the public printing to both the county papers, thereby letting the greatest number of people learn the court's acts, and not turning all the expenditure for this work to their own party organ. For this the people are grateful and will feel that fairness has been observed by all and made it pleasant for all, do resolve as follows: First. That if in the future at any time it becomes necessary for this court

cannot leaves seriously urged an intimate acquaintance with nature, the learning of the names of all the trees, and kindness to the little birds. They begged that all bread crumbs be saved and never to throw an apple core in the fire. The rose leaf most eagerly advised that when becoming disappointed in one person not to lose faith in all others. It added: "The shades of all roses cannot be ascertained by the color of one bud." The leaves of the violets moved about among themselves, saying that "It is better to heed advice before passing it." The daisy forgot—no leaf was most earnest in its request to remember kindness always, to be ever grateful for loving thoughts from those around us. The daisy leaves were gay reminders of happiness. "Do not take life too seriously," were their admonitions.

In the far corner of the garden was a beautiful Easter lily, graceful and gentle in the extreme. Its message was to the soul and related to mother the story of the All-Wise Love: "Neglect not your spiritual training; commune daily with the Great Giver of life and love and promise!"

That was mother's dream; just a dream. But it caused an awakening, a resurrection of dead intentions that meant so much for the good of her future. May we, you and I, be aroused from our dreams. May we have pure, wholesome thoughts, determined ambitions, and a clearer, deeper understanding of the significance of the Easter season and the green leaves.—A. Louise Ballalage.

Judge Moorman Permanently Located in Home County

Hardinsburg, Ky. April 5, 1910.

TO MY FRIENDS AND CLIENTS:

I have seen several notices in the Louisville papers, and others, to the effect that I will move to Louisville to practice law. It is true that I considered several propositions to do this, shortly after the expiration of my term as County Judge, and it was undecided as to whether I would remain here or go with a firm in that city. However, I have determined to practice my profession among my home people who have so highly honored me and whom I served faithfully and to the best of my ability in official capacity.

I have furnished offices in the Masonic building and will gladly welcome my friends and clients in my new quarters. I have often been asked as to my future. I take this means of correcting the erroneous impression that I am only temporarily located in Hardinsburg, or am undecided as to my near future.

Useful Meat Chopper.
 The meat chopper will soon save more than its cost by enabling one to use cheaper cuts of meat and to utilize leftover meats. It saw beef run through it is a pleasant change from plain steak. It should be well seasoned with salt and pepper before chopping and should have a little fat mixed with the lean. Drop the little rolls just as they come from the perforated plate of the chopper, a very hot pan, with a little butter. Stir lightly a moment or two and serve quickly on a hot plate. To use remnants of roasts, steaks or any nice cooked meat put them through the chopper and mix with an equal measure of bread crumbs. Season with salt and pepper. Some persons may like berries. Mix with any gravy or stock you may have or with cream, making a little more moist than you would dressing for poultry. Put in a skillet or thick pan, cover closely with a plate and bake in the oven until well heated. Twenty minutes or half an hour is about right. After a few trials, possibly the first time, you may succeed in making this very nicely. Another favorite way of using meat, especially cooked ham, is to cut it in small pieces, heat lightly and break over it one egg for each person to be served. When the eggs begin to set, cut across them and stir carefully so as to preserve the delicate yellow and white of the eggs. Serve at once.

Sand-clay Roads in Kansas.
 Sand-clay roads are made of these two materials and in some parts of the south are held to be, for particular regions at least, more practicable than macadam. This construction is now being introduced in the sand hill country of Kansas, where the sandy roads have hindered agricultural development by imposing great difficulty on the transportation of farm products.

Garden City, which is in the sandy country, solved the transportation problem by building a sand-clay road through the hills south of that city. Before this road was built farmers had to haul their grain more than twenty-five miles by a roundabout way in order to reach a market that is only ten miles distant. The property owners of Hutchinson and McPherson counties are now considering the opening of a big territory that has been handicapped by heavy sand hill roads.

DEMOCRATIC VICTORY

Predicted By Woodrow Wilson -
Thinks Democrats Should
Take Care of Country

New York, March 30.—That the presidential election is now turning Democratic and that the day when the democratic party must take care of this country's affairs is almost at hand, were declarations made by Woodrow Wilson, president of Princeton university, in a speech at the democratic dinner at Elizabeth, N. J., last night. Mr. Wilson outlined the character of government the democratic party should give the country to meet present conditions. In part he said:

"In the first place we should, without merely to curb the trusts and above all, should not wish to regulate them in such a way as will make them either partners or creatures of the government itself. We should wish to square their whole action and responsibility with the general interest regarding the country as objects in themselves but merely as consequences in our economic life and development. Recent proposed legislation has looked too much like wholesale invasion by the government itself of the field of government management."

"Our regulations of public interests must be legal regulation, and not direct management. In the second, place it is clearly our duty to take the government out of the business of patronage, the business of granting favors and privileges, of arranging the laws so that this or that group of men may make large profits out of their business, and draw it back to the function of safeguarding rights general, not particular right; the rights which make not so much for the prosperity which enables small groups of individuals to pile up enormous fortunes as for a general stimulation, a universal opportunity for enlightenment and justice. I am thinking, of course, of legal legislation."

"Whatever may be our views with regard to the policy vaguely called the policy for protection, it is clear that in fact it is doing nothing. It has been by congress, ceased to be a policy of protection and become a policy of patronage."

"We are told that the present extraordinary high prices of commodities is due not to the tariff but to the fact that we are not producing enough to meet with the daily demand, and that is particularly true with regard to the things we eat and have daily need of. Take meat, for example, and see what the truth is. The truth is that the meat trusts have been able to control the meat market to such an extent that the carcasses of ranchmen have been driven out of the cattle-raising business because it was unprofitable. The short supply of meat is due to the methods adopted by the packers' trust. It is true therefore, that the supply is short compared with the vast demand, but it has been made short by the operation of a trust unquestionably fostered by the legislative branch of government."

"Don't expect sweet peas to thrive in soil too poor for any other culture, or in a sunless locality. They need, as nearly as possible, a free lay, moderately rich and freely cultivated."

"Don't sow too shallow. Plant the seeds not less than two inches deep, as the plants become established, bank the soil against them, repeating this two or three times through the season."

"Don't over-feed. With a view to obtaining vigorous growth and profusion of bloom, bone, in some form, is the best fertilizer. Nitrates of soda, which do for a 'furry' stimulant, should it be needed; but use it sparingly."

"Don't gather the blooms gradually. The more you cut the longer the vine will continue to flower. Remember, when you go to seed Sweet Peas will cease flowering."

Saved From The Grave.
"I had about given up hope, after nearly 4 years of suffering from a severe lung trouble," writes Mrs. M. L. Dix, of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do any work, but Dr. King's New Discovery has made me feel like a new person. I use the best medicine made for the throat and lungs. Obsolete coughs, stubborn colds, hay fever, laryngitis, asthma, croup, bronchitis and hemorrhages, hoarseness and whooping cough, yield quickly to this wonderful medicine. Try it. 50c and \$1.00. THE SECRET OF HIS SUCCESS

Friend Lost Voters' Good Opinion, But All of Them Were in Line for the Captain

Captain Alf Gibson, land commissioner in the state auditor's office, used to take a very prominent part in politics down on the Neosho. Once the captain was a candidate for a minor office in his home county. He was the best friend, politically, was also a candidate, but for a different office. They campaigned the district thoroughly, but the captain's friend did not seem to be getting anywhere. He complained to the captain, and the future land commissioner decided to go on a little private tour of investigation. He went all over the district inquiring of the farmers their objection to his friend. They were suspicious and hesitated long before giving any reason, but finally began to leak out.

"This friend of mine," said the captain, "was a particular kind of cuss. He washed his face and combed his hair in the morning, washed and combed again when he came in from the field for dinner and performed the same stunt in the evening. He used soap. I had never thought much about it, but when I investigated I began to find that therein lay the objection to my friend. The voters thought he was too fussy. He was clean and neat, but it was no use. When the election came on the poor fellow was swamped. He hardly got a vote. His washing and combing defeated him."

The captain folded his hands complacently across his vest front and concluded:

"But all of those people voted for me."—Kansas City Journal.

THE FORK IN TURKEY.

Saith Pasha, the boss of the Turkish War Department, has just placed an order with a German manufacturer for 1,250,000 table forks for the use of the Ottoman army. At present the fork is an implement rarely honored by the Moslem high priests. Like the sturdy burgher of Switzerland, the earthing of Sweden and the honest peasant of New Mexico, he employs the knife for all gustatory purposes. His favorite blade comes from Damascus and is dully along one edge and ground to razor or keenness along the other. With that one knife he eats, he washes, he cuts, he shaves himself, opens his mail and dericks his food.

We have no doubt whatever that when those German forks are issued to the Turkish soldiers and they are ordered to use them there will be mutinies in all the barracks, followed by the usual massacres of Armenians. Their sympathy goes out, not alone to the Armenians, but also to the soldiers. The eating fork is a dangerous and useless instrument. Popophanes, true enough, has invented it with a view to the plan, but what have simple Moslems, or any other honest folk, to do with Popophanes? We always envy and respect, indeed, that man who is strong enough to hold hostility with the knife in the face of social ostracism and fastidious sneers.

WANTED TO DRY PENELOPE

Nothing But Electric Fan Could Arrange Darling's Fur as it Should Be.

Several persons marooned in a Broadway drug store during a downpour of rain learned a novel use for an electric fan, says the New York Sun. About four o'clock a woman carrying a diminutive white dog alighted from a taxicab and entered the store. The store keeps a complete fan ready for business the year round, but that day it was not going. The woman asked if the current could be turned on. Being assured that it could she said:

"Then would you mind turning it on for a few minutes? I want to dry Penelope. I had to carry her for a block in the rain and she got damp and bedraggled."

When it dawned upon the clerk that Penelope was none other than the scrap of a dog he suggested that she might be dried over the radiator. "What would never do," said the woman. "She would look strange. What hair of this texture gets damp the very best treatment is to dry it with an electric fan. It gives life and tone. I am going to call a woman who lives above this store. She has never seen Penelope, but she has heard what a beautiful dog she is, and I want the little thing to look like a queen. If you will let the fan go I shall be so much obliged."

The clerk turned on the current and for ten minutes Penelope's tousled locks tumbled in the breeze.
